

LEADERSHIP CONSULTING

We believe that every individual has the capability within oneself to become a Leader irrespective of Career stage, Life Stage, Hierarchies or experience. Our Global Frameworks & Tools are based on a Strengths approach; overcoming one's fears, stereotypes & past baggage for better productivity.

BlewMinds does not refer to Leadership as mere 'Titular Leadership' - it talks about 'enabling, empowering, driving, making-results-happen kind of Leaders'. It is about that role of responsibility, capability, charm & competencies which help individuals transform themselves to be powerful from within. To enable leaders to have a more productive long-term success rather than a short term purpose toward life, which may lead to a burnout, we coach & consult in areas of leadership such that when they return to work, they create more leaders in the workplace.

We build Leaders of congruence at personal spaces & also at workplaces. Some of our Flagship & Signature Leadership products, interventions or services are driven by Global collaborations with renowned Indian Celebrities with a cause, Global Speakers, Artists, Soul Coaches, Award Winning Actors, successful & grounded Sports persons.

We base such interventions on powerful Global Models, Leadership frameworks & unconventional sustainable conceptual learning experiences. Leadership Consulting for us encompasses Leadership Strategy, Advisory, execution & Coaching of Leadership teams. It is about building a positive Cultural mindset & artifacts in their Leadership.
